

Your questions answered:

What arrangements are in place for school transport?

Final arrangements for school transport are still being made by the local authority. There will be an attempt to provide school transport for limited numbers of children for afternoon sessions only.

Children are encouraged to attend school by bicycle or walking, where possible. Bicycles may be secured in the bicycle shelter.

Parents or carers may bring their child to school by car using the on-site safe drop-off zone. However, no vehicles will be permitted onto the school site for pick-up. Instead, parents and carers will be required to park on Circle Way East and children walk to the vehicle using the roadside pavement.

Staff are encouraged to attend school by car, bicycle or walking. The main car park provides adequate space for parking and bicycles may be secured in the bicycle shelter.
